## Shriners

*The Paper Crusade Plaque Program is a year round program with a two-fold purpose:*

- ◆ *To inform the public about Shriners Hospitals and the children treated. Two days each year are designated for our members to distribute a special edition of a Hospital News Paper to the general public on street corners, stores, and shopping centers and,*
- ◆ *To raise funds for Shriners Hospitals through voluntary donations not only during those two days, but throughout the year.*

## Paper Crusade Plaque Program

In 1998, Bahia Shrine Center started the Plaque Program.

This program is an integral part of our annual Paper Crusade. Our annual Paper Crusade is a year-round program to inform the public about the Shriners Hospital for Children and the children that are treated.

We also raise funds for the Shriners Hospital for Children through voluntary donations.

The plaques are given throughout the year to members, their friends, and businesses for a donation of \$100 or more. The plaques are engraved with the donor's name, and there are ten update bars to denote the donor's subsequent additional donations.

Nobles who make or obtain Plaque donations receive credit for their Unit/Club or BSC for our Annual Paper Crusade competition between the various Uniformed Units, Social Clubs and Bahia Shrine Clubs.

## Shriners Hospitals for Children: Providing Expert, Excellent Specialized Pediatric Care

Since 1922, when the first Shriners Hospital opened in Shreveport, Louisiana, providing advanced pediatric specialty care has been a keystone of our mission to improve the lives of children. Today, Shriners Hospitals for Children® is a premier healthcare system with 22 locations in the U.S., Canada and Mexico.

Our staff is dedicated to improving the lives of children by providing pediatric specialty care, conducting innovative research, and offering outstanding teaching programs for medical professionals. Children with orthopedic conditions, burns, spinal cord injuries, and cleft lip and palate are eligible for care in a family-centered environment, regardless of the families' ability to pay for services. Within these broad service lines, many types of care are provided. For example, some locations offer reconstructive plastic surgery, treatment for craniofacial abnormalities or care for sports injuries.

Our pediatric health care system has cared for more than 1.3 million children since the first Shriners Hospital opened its doors. Shriners Hospitals for Children was established as the official philanthropy of the Shriners of North America (now known as Shriners International), a fraternity based on fun, fellowship and the Masonic principles of brotherly love, relief and truth. For more than 90 years, the fraternity has continued to support this unique health care system.
